

## Serena Dimensions RM Basic User Training

QP-TS1-07

This training course presents the basic features of Serena Dimensions RM and is recommended for product/project managers and other roles, which are not fully involved into requirements engineering tasks. Key topics for this training are:

- Introduction into Requirements Management
- Capture Requirements
- Requirements Change Process
- View Traceability
- Access Documents
- Run Reports

### Benefits:

All trainings of QualityPark are performed by high qualified and experienced trainers. An elaborate schedule allows enough time for practical experience with the tool.

The content of the training can be adopted according to a concrete requirements process.

### Services:

The training will be provided according to approved QualityPark-Methods. This offer includes the following services:

Preparation	Tailoring of training content, check for prerequisites
Training	Realization of a one-day training (approx. 8 hours incl. breaks) as inhouse training on the customers site
Handout	Training handout and confirmation of attendance for each participant

Premises:

For a successful and effective performance of a one-day training a number of 3-10 persons is required and has proved to be particularly effective. **Participation does not require any knowledge in RM.**

Following equipment is needed for the training: a meeting room with **sufficient space as well as a running environment of Serena Dimensions RM for practical demonstrations.**

Further requirements are not needed.

Price list (without obligation):

QualityPark performs this service at a fixed price of **600 € per participant**. A **minimum number of 3 participants** is required for this training.

Travel expenses off-site Berlin will be charged additionally on cost base.

All prices are listed exclusive VAT, valid at the date of issuing the invoice. These services are subject to the general terms and conditions of QualityPark GmbH.

Further Trainings:

Dimensions RM Advanced User Training  
Dimensions RM Administrator Training  
Additional training offerings are available on request (e.g. Developer Training)
